Contents of Volume 14

Volume 14 No. 1 September 1995

Special Issue on

PARALLEL AND REDUNDANT ROBOTS

Edited by
M. JAMSHIDI

Guest Editorial 1

MEYER NAHON / A Comparison of Methods for the Control of Redundantly-Actuated Robotic Systems 3–20

F. RANDJBARAN, J. ANGELES, M. A. GONZÁLEZ-PALACIOS and R. V. PATEL / The Mechanical Design of a Seven-Axes Manipulator with Kinematic Isotropy 21–41

ARATI S. DEO and IAN D. WALKER / Overview of Damped Least-Squares Methods for Inverse Kinematics of Robot Manipulators 43–68

R. COLBAUGH and K. GLASS / Robust Adaptive Control of Redundant Manipulators 69–88

MARK K. LONG and PAUL G. BACKES / Extended Impedance Control Using Real and Virtual Sensors for Redundant Manipulators 89–103

RODNEY G. ROBERTS and ANTHONY A. MACIEJEWSKI / Calculation of Repeatable Control Strategies for Kinematically Redundant Manipulators 105–130

Calendar 131–132

Volume 14 No. 2 October 1995

SEAN M. CALLAHAN and GERARD VOLAND / Extracting Knowledge from Examples: Induction of Heuristic Rules for Wheelchair Prescription 133–153

YURI EKALO and MIOMIR VUKOBRATOVIC / Quality of Stabilization of Robot Interacting with Dynamic Environment 155–179

HUIMING YU and RAASHID MALIK / Aimy: An Autonomous Mobile Robot Navigation in Unknown Environment with Infrared Detector System 181–197

J. ADONGO OCHIER, C. D. MLADENOVA and P. C. MÜLLER / An Approach to Automatic Generation of Dynamic Equations of Elastic Joint Manipulators in Symbolic Language 199–218

LISE CELLIER, PIERRE DAUCHEZ, MASARU UCHIYAMA and RENÉ ZAPATA / Collision Avoidance for a Two-Arm Robot by Reflex Actions: Simulations and Experimentations 219–238

Book Review
Subrata Dasgupta: *Design Theory and Computer Science* (GERARD VOLAND) 239–240

Volume 14 No. 3 November 1995

CHANG SHU and HILARY BUXTON / Dynamic Motion Planning Using a Distributed Representation 241–262

MAGDI S. MAHMOUD and SAMIR KOTOB / A Robust Control Scheme for Asymptotic Tracking of Robot Motion 263–282

VASSILIOS D. TOURASSIS and MARCELO H. ANG JR. / Task Decoupling in Robot Manipulators 283–302

A. TASCILLO / Diagnostic Neural Adaptive Control of Drifting Systems 303–321

TAREK SOBH and JONATHAN OWEN / A Sensing Strategy for the Reverse Engineering of Machined Parts 323–340

List of Reviewers to Volume 12–14 341

Calendar of Events 343–345

Index of Authors to Volume 14 347

Index of Keywords to Volume 14 349–350

Contents of Volume 14 351–352
